

## Overview

Deployable Technologies LLC (DTI) is a Service-Disabled Veteran Owned Small Business (SDVOSB) that delivers tactical information technology solutions and services to the federal, state, and local governments and the commercial marketplace. Using a consultative approach DTI achieves an understanding of our client's business challenges and takes responsibility as the single point of contact in integrating multi-vendor solutions that provide innovative and practical results.

## Core Competencies

### IT Technical Services and Deployable Computing

- Supplier of rugged deployable computing and integrated solutions
- Design, integration, and fielding of portable, mobile, man wearable and fixed-site systems
- In-house engineering and fabrication of deployable waterproof cases
- In-house project management and consultants for projects of all sizes
- Dedicated facility for Rack and Stack, Kitting and Systems Integration
- Design of custom rack cases and soft goods
- Quick prototyping

### Data Center & SCIF

- Design and deployment of portable, scalable, and energy-efficient modular SCIFs
- Single Point-of-Contact for multi-vendor solutions
- Industrial building construction
- Manufacturer of UL listed RF Shielded Racks

### Custom work capabilities

- In-house plastic & aluminum parts
- In-house mechanical design
- In-house electrical design
- In-house silk screening
- In-house powder coating
- In-house custom product development

## Past Performance

- Deployable Computing – Over 100,000 computers ordered spanning a 10-year period
- Direct awards with SOCOM, NSA, DISA and others
- Chosen to design and manufacture secure communications travel kits for WHCA, FBI, CIA and 9 Combatant commands

## Differentiators

- Combined Experience of over 60 years in Computer Design and Data Center Management
- Single Point-of-Contact in integrating multi-vendor solutions such as deployable data centers, new construction, and integrating new solutions into existing environments
- Agile, collaborative approach with customers and partners to add depth, value, and reach to IT investments

## Place of Performance

- CONUS

## Primary NAICS Codes

- 541512** – Computer Systems Design Services
- 236210** – Industrial Building Construction

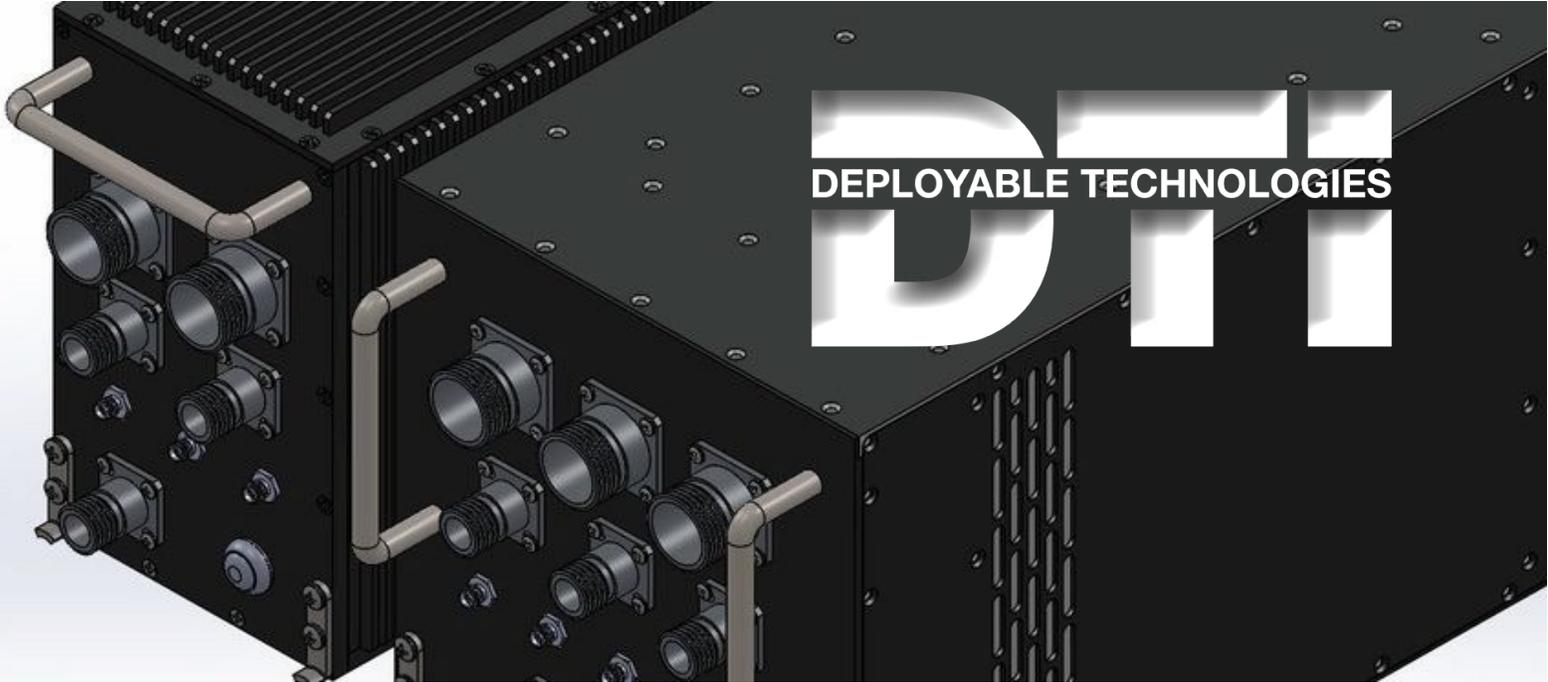

## Secondary NAICS Codes

- 517919** – All Other Telecommunications
- 541513** – Computer Facilities Management Services
- 541519** – Other Computer Related Services
- 541611** – Administrative Management and General Management Consulting Services
- 541690** – Other Scientific and Technical Consulting Services

## POC

**Contact:** Andrew Deleyiannis (President)

**CAGE:** SUTB2

**DTI**  
 DEPLOYABLE TECHNOLOGIES

- \*SPECIALIZED**
- \*EXPERIENCE**
- \*SEAMLESS**
- \*SCALE**

DTI has deep experience in the development and manufacture of rugged, shielded enclosures for critical electronics.

DTI provides the knowledge and resources to support products from concept to prototyping to production. Lower costs and increase scale through process and design optimization.

## CAPABILITIES

### Product Development

DTI supplements customer engineering with a collaborative approach to product development.

- Mission Critical Networking
- Wearable Manpack Systems
- Rugged Computing
- Tactical Radios

### Concept to Market

DTI offers complete, turn-key designs & services specializing in rugged electronic products. Custom Tempest Products, Underwater Sensor Systems, Rugged Power Systems & Shipboard Equipment Racks

### Contract Manufacturing

- |             |                   |
|-------------|-------------------|
| Sourcing    | Screen Printing   |
| Machining   | Powder Coating    |
| Fabrication | 3D Printing       |
| Finishing   | Injection Molding |
| Welding     | Diecast           |
| Assembly    | PCBA              |

## MISSION FOCUS

Our work is an integral component to the operations of our customer. We can only succeed with the success of our customers. This mission focus drives us to exceed expectations.
